193/262 mRNA catabolic process
146/283 nucleic acid catabolic process
42/101 macromolecule catabolic process
72/103 regulation of ubiquitin protein ligase
70/68 protein targeting to membrane
141/274 protein targeting
93/175 establishment of protein localization to endoplasmic reticulum membrane
67/95 protein localization to endoplasmic reticulum
67/95 establishment of protein localization to endoplasmic reticulum
208/440 response to glycerol
208/440 establishment of protein localization to organelle
18/30 ribosome/protein complex biogenesis
18/30 ribosomal large subunit assembly
18/30 ribosome biogenesis
34/53 ribosome assembly
34/53 ribosomal large subunit biogenesis
42/75 ribosomal small subunit biogenesis
15/18 ribosomal small subunit assembly
15/18 cholesteric rRNA processing
75/15 rRNA 5S end processing
75/15 processing of rRNA w-ly(4)lacton-dependent heterocyclization formation
